Portfolio: denzoromero.github.io/DJR-Portofolio/

SUMMARY

Full Stack Developer with experience designing and developing business applications using C#, .NET, EF Core, SQL Server, React, JavaScript, and TypeScript. Experienced in building and maintaining applications across the full development lifecycle, from database design and backend development to frontend implementation, testing, deployment, and support. Comfortable applying Clean Architecture and automated testing practices to build maintainable and reliable systems.

TECHNICAL SKILLS

Languages: C#, JavaScript, TypeScript, SQL

Backend Development: .NET Core, Entity Framework Core, RESTful APIs

Frontend Development: React, HTML5, CSS3, JavaScript, TypeScript

Databases: PostgreSQL, SQL Server, Relational Database Design

Tools & Technologies: Git, GitHub, Visual Studio, VS Code

Software Development: OOP, Clean Code Principles, System Architecture, Database Modeling, Agile Development

Testing: Unit Testing, Integration Testing, Functional Testing

EXPERIENCE

Systems and Applications Development Technician

Seatrium Estaleiro BrasFELS Ltda | 2023 - Present

- Developed and maintained internal business applications using .NET Core frameworks, EF Core, SQL Server, and JavaScript, improving processes and supporting teams across different business areas.
- Independently designed and developed business applications, including database architecture, backend services, frontend interfaces, testing, and ongoing maintenance.

- Modernized legacy VB.NET systems by migrating them to ASP.NET Core MVC, redesigning application structure using Clean Architecture and implementing automated unit, integration, and functional testing practices.
- Optimized SQL Server queries and data access patterns, reducing application response times and improving overall system performance.

Freelance Front-End Developer (Remote)

Philippines | 2020 - 2022

- Developed responsive web applications using React, JavaScript, TypeScript, HTML, CSS, and Tailwind CSS.
- Converted Figma and UI/UX designs into functional web interfaces.

Junior Developer

Gemango Software Services Inc. | 2019 - 2020

- Debugged and resolved software issues across multiple projects.
- Prepared technical documentation and enhanced existing applications.

PROJECTS

CadNotas - (ASP.NET Core MVC, EF Core, SQL Server)

- Modernized a legacy invoice and material allocation system from VB.NET to ASP.NET Core MVC.
- Implemented custom PDF and Excel reporting solutions for operational workflows.
- Optimized report generation and print rendering for high-volume business documents.

Ferramentaria - (ASP.NET Core MVC, EF Core, SQL Server)

- Redeveloped a legacy inventory and transaction management system using ASP.NET Core MVC, EF Core, and SQL Server.
- Implemented claims-based authentication, authorization, and audit logging.
- Designed idempotent transaction workflows to prevent duplicate business operations.

FerramentariaLider API - (ASP.NET Core Web API, EF Core, SQL Server, JWT)

- Designed and developed a RESTful API using ASP.NET Core, EF Core, SQL Server, JWT authentication, and role-based authorization.
- Supported catalog management and reservation workflows through secure service endpoints.

FerramentariaLider UI - (ASP.NET Core MVC, Microsoft Authentication)

- Developed an internal catalog and reservation platform using ASP.NET Core MVC.
- Integrated REST APIs and Microsoft Authentication with MFA support.
- Delivered an e-commerce style user experience for internal equipment reservations.

GME - (ASP.NET Core MVC, EF Core, SQL Server)

- Designed and developed an engineering material management and balancing system for material allocation and usage tracking.
- Implemented complex validation and cross-referencing logic to improve inventory accuracy.

- Built automated Excel import and template validation features for batch processing workflows.

EDUCATION

Bachelor of Science in Information and Communications Technology (BSICT)

University of San Carlos

Cebu, Philippines

LANGUAGES

- English – Full Professional Proficiency
- Portuguese – Conversational Proficiency
- Filipino – Native Proficiency
- Cebuano – Native Proficiency
